

Terry Schulz

I have been a member of the club for 12 years, ever since Ed Kaczowski found me waiting to drive the Vintage Grand Prix course in 2010; Audi was the mark of the year. At that time my 3<sup>rd</sup> Audi TT, a 2009 coupe, was new. My first TT was a 2001. Not long after joining the club I was talked into attending a high performance drivers education event (HPDE) at the Mid Ohio track – it changed my life. I think the smile on my face lasted for 6 months. Since then I have attended over 20 such events and enjoy them more every time I go. But for me the Audi club is much more than HPDEs, including many other activities like Meet 'n Greets, club drives, tech sessions and dealer events. The club members that I have met are great people, friendly and always willing to help you. Over the years, I have developed a great group of friends in the club. In addition to enjoying the wide range of club events, I have been a board member for 7 years. As a board member I have helped to develop the list of club activities for the year and also to organize some of them.

I have organized a Country drive every year since 2012. This event involves a couple hours quality time driving less traveled country roads and a dinner following. These events have raised almost \$1000 for charity. I have also organized some other events (Holiday dinners, visit to the Frick Auto Museum, several Meet 'N Greets).

I think that one of the biggest challenges we face going forward is to how to get more and especially younger club members involved in our activities. I hope to also help get our WEB site updated and maintain its content. I also hope to help with club communications.

I am a retired engineer after 45 years with Westinghouse Elect. Co. designing nuclear power plants. I enjoy travel, cooking, photography and car history / racing.
