

Hi, my name is Greg Lankes and I've been a lifelong Audi/VW enthusiast. I've managed to own 11 such examples so far and am looking forward to many more. I've travelled to Ingolstadt and Neckarsulm and Wolfsburg to see where these fantastic vehicles are designed & built and even did several laps at the Nurburgring (in a wicked stage II Scirocco), so suffice to say I'm hooked on the marque. I've been an Audi Club member since 2010 and have served on the local Western Pa. board since its inception.

I enjoy the camaraderie of the club and the fact that there's really "something for everybody" to participate in. Whether you like getting together to admire each other's cars and talk about the brand over dinner and a German Hefeweizen or your passion lies with hitting the track to test the limits of both you and your car, this is the right group. Having said that, I do however feel there are areas that we should seek to improve upon. My vision for the club moving forward is for us utilize technology in a greater capacity to engage our more tech savvy owners and for our club ambassadors to actively rekindle and solidify relationships with our local dealer network and community. By doing this I believe we can grow the club to rival some of the larger chapters across the country.

As for my professional background, I've worked in the insurance and financial services industry as a representative for State Farm since 1995. I like to utilize my experience in the field to assist the club on these matters as needed or necessary.

In my spare time, I enjoy fitness training and detailing our cars (currently a 2018 S3 & a 2018 SQ5) every chance that I get.

Thanks for considering my board nomination and if you've been hesitant to attend an event, please come out to our next get together and see for yourself how much fun it really is!
